Education

Spiru Haret University of Bucharest
Oct 2018 - June 2021

Bachelor's degree - Computer Science

WHO AM I

I want to explore new and creative software development projects. I am looking for collaborations where I can leverage my front-end expertise to help businesses grow.

With a proven track record of working with US and EU-based clients, I bring reliable communication and an understanding of business practices to every project.

EXPERIENCE

Front End Developer

GlobalLogic, Bucharest | August 2025 - present

- Worked remotely with Epassi (Netherlands-based client), contributing to a monorepo architecture that powered 4 separate portals.
- Built data-driven views using React Query with caching, pagination, and error handling for API integrations.
- Implemented authentication flows and role-based access, with Next.js, within portals to align with user roles (employees, employers, merchants and users).

Front End Developer

ZeroBounce, Bucharest | October 2022 - July 2025

- I led a successful initiative, migrating the platform from Gatsby to Next.js. I designed and implemented the project architecture from scratch, applying industry best practices to improve scalability and maintainability.
- I worked alongside backend engineers to integrate REST APIs and partnered with the infrastructure team to set up a CI/CD pipeline, ensuring seamless deployment and continuous integration throughout the development lifecycle.

Front End Developer

Softbinator Technologies, Bucharest | Feb 2022 - Oct 2022

- Assisted in developing a cutting-edge, browser-based video editing application for the French client Jellysmack, with a strong focus on user experience.
- Implemented advanced features such as picture-in-picture editing, timeline manipulation, and real-time video effects to enhance the user experience.
- Delivered a full-stack development course at Ovidius University in Constanța, offering practical training and mentorship to prepare students with industry-relevant skills.

Front End Developer

IBM Romania S.R.L., Bucharest | Feb 2021 - Dec 2021
